

## Donations of Securities

Donations of appreciated securities like stocks, bonds, and shares of mutual funds, may provide more benefits than cash gifts:

1. Capital gains tax savings.
2. Maximize your deduction while not affecting your liquidity. Making a gift of stock allows you to retain cash assets *and* receive a charitable tax deduction for the full fair market value of the stock that you've owned for more than one year.
3. Remove the asset from your estate for estate tax purposes.

Thank you for your interest in donating securities to Olancho Aid Foundation. Please provide the following information to your broker in order to make the securities transfer:

Brokerage Firm: MERRILL LYNCH  
DTC #: 8862  
Account #: 661-02717  
Name: OLANCHO AID FOUNDATION INC

Transfers to the Olancho Aid Foundation brokerage account do not contain your name. To ensure issuance of a prompt receipt, contact us at [info@olanchoaid.org](mailto:info@olanchoaid.org) when a gift is being transferred. In the notification email, please include:

1. Donor name
2. Name, ticker symbol, and number of shares of the stock being donated
3. Mailing address of the donor for issuance of the tax receipt
4. The purpose of the gift, and whether it is a payment on a pledge

One of the best options for support is to make a contribution toward the general fund. These types of gifts allow flexibility for responding to the most urgent needs of Olancho Aid Foundation. However, gifts designated for a specific program may be accepted. To ensure OAF's capacity to honor a designated gift, contact us at [info@olanchoaid.org](mailto:info@olanchoaid.org).
